| Name of product           | EBV Capsid Antigen P23  |  |
|---------------------------|---|--|
| Order No.                 | BA1361VSR21   |  |
| Lot No.                   | Lot specific  |  |
| Source                    | E. coli derived recombinant protein   |  |
| Product description       | Epstein-Barr virus (EBV), recombinant capsid antigen P23.<br>Molecular mass: 21 kDa         |  |
| Purification              | By chromatography   |  |
| Presentation              | The protein is presented in buffer containing 50 mM Tris/HCl pH 6.0, 1 M NaCl and 4 M urea. |  |
| Storage                   | -65 °C or below. Avoid repeated freeze-thaw cycles.   |  |
| Date of manufacture       | Lot specific  |  |
| Expiry                    | 10 years from date of manufacture (when stored under recommended conditions)                |  |
| Manufacturer              | Institut Virion\Serion GmbH, Germany  |  |
| For research or manufactu | ring use only. Not for use in diagnostic procedures. 2018-01-15                             |  |

## **Product Data Sheet – Recombinant Antigen**

## Analysis:

| Test                  | Method  | Specification  |
|-----------------------|---|--|
| Protein concentration | Bradford assay (Bio-Rad) with BSA as reference standard       | 1.0 mg/mL  |
| Identity / Purity     | SDS-PAGE (reducing)   | Major bands comparable to Reference<br>Standard  |
| Immunoreactivity      | SERION ELISA classic<br>Epstein-Barr Virus VCA IgG (ESR1361G) | QC serum panel (multiple negative,<br>borderline and positive sera) within defined<br>reactivity range |
